

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	03 October 2022
Team ID	PNT2022TMID48527
Project Name	Project - Cloud Application Development - Skill / Job Recommender Application
Maximum Marks	4 Marks

Functional Requirements:

Following are the functional requirements of the proposed solution.

FR No.	Functional Requirement (Epic)	Sub Requirement (Story / Sub-Task)
FR-1	User Registration	Registration via Form on our website.
FR-2	Profile Completion	User will create their profile with their basic personal details, we will call them in person to know their educational background, skill levels, and their goals to provide them with better service. The gathered details will be stored and displayed in their profile section.
FR-3	User Login	Users can log in with either their Email or Phone number.
FR-4	Job / Skill Recommendation	Based on their profile, we will recommend them appropriate jobs with courses to learn if needed. Will be notified through Email and Our Website.

Non-functional Requirements:

Following are the non-functional requirements of the proposed solution.

FR No.	Non-Functional Requirement	Description
NFR-1	Usability	Right now, we are focusing on the target users (fresher and college students) without any special considerations. We will definitely make it usable for all kinds of people in the future.
NFR-2	Security	Basic form validations will be performed to avoid harmful injections and also to get meaningful information.
NFR-3	Reliability	We are planning to serve 1000 users at a time in the initial stages.
NFR-4	Performance	Mobile responsive website.
NFR-5	Availability	Planning to provide customer support during office hours 9-5.
NFR-6	Scalability	In addition to this, we can provide career guidance programs, job fairs, native language support, and premium services like personalized mentoring, coaching, and so on in the future.
